

## WestGrid Newsletter - December 2016

WestGrid's newsletter for the month of December 2016 is now available to [read online](#) [1]. This month's newsletter includes a roundup of the regional activities and national initiatives that have kept the WestGrid team busy lately. Stories include:

- WestGrid's Executive Director, Lindsay Sill, shares a recap from her experience at SC'16, the world's largest supercomputing conference of its kind
- WestGrid shares a primer on Object Storage, which will be a new storage service offering within Compute Canada next year. [Read it here](#) [2].
- Compute Canada has published a status report of its national platform renewal. [Read it here](#) [3].
- Lots of training and outreach events planned over the coming month!
